

We understand the need for free trade and that stopping tele-marketing would impact businesses. However, we have chosen to block tele-marketing calls from our home phone lines which we pay every month to have. Each family should have the choice to block these calls from a phone line that they pay for and a phone number that belongs to them. We have chosen to block UNWANTED calls and enjoy knowing when the phone rings it is family and friends calling. Please do not change Indiana's law. Thank you.
